It's absolute trash. I think I love it.. There is a lot of spirit that went into making this, obviously, but I just can't recommend it.. played a few FMV's in my life, including late shift, planet of the apes, every telltale game, and now press nothing to do die, which is a lot more fun as pressing x to not die. glad those last 2 games are all rapped up into this game and you can enjoy both sides of the choice. great game for the retail price. i'd say its worth it.
